POWERFUL INSIGHTS. PROVEN DELIVERY
RISK, COMPLIANCE AND GOVERNANCE

IS YOUR BUSINESS PREPARED FOR THE BIG RISKS?

Compliance Risk

These are the laws businesses need to comply with to avoid fines and reputational damage.

- Do you have resources to keep abreast of new laws and regulations?
- Do you comply with workplace safety requirements?
- Do you meet all regulatory reporting and governance requirements?

Business and Financial Risk

These are the threats you face to your cash flow, long term sustainability and meeting your strategic objectives.

- Are you protected against internal fraud?
- What if a supplier can't provide you with products/services?
- What if a client goes bankrupt and can't pay you?

Operational and IT Risk

These risks are all about events that hamper your day-to-day business.

- What do you do when your phone lines are down for an extended period due to cable theft?
- What if a key staff member is in an accident or taken ill and can't come to work?
- What happens if your information security systems are breached and client and supplier information stolen?

Jirrah Governance Consulting can assist you in identifying and minimising /eliminating risks associated with your business, while also ensuring that you are legally compliant. We believe in a practical and educational approach to the management of risk, compliance and governance to ensure that the fundamentals of risk management are understood throughout your business.

We provide training to Management and staff on legislative requirements and how these are translated into day-to-day business processes, thereby minimizing your exposure to fines and penalties.

This will ensure that you

- ✓ Reduce your business risk
- ✓ Maximise your time and resources
- ✓ Gain peace of mind
- ✓ Ensure reporting to Regulators, Industry Bodies and the Board is done
- ✓ Create a risk aware culture in which people understand their role in contributing to the achievement of your business objectives.
